

Florida North Area 9
Assembly—May 3-5, 2024
Panel 64—District 7

Greetings from District 7! Our District is comprised of all Pinellas County. We currently hold 36 face to face meetings, 1 of these are in Spanish, 4 electronic only, and 2 Alateen meetings weekly. Many of our meetings have maintained an electronic portion to their meeting. Approximately 31 of our groups have Group Representation with about 20 of them regularly attending our monthly District Meetings. We are blessed!

While we currently do not have a District 7 Treasurer or DSL, many of our chairperson positions are filled with active and enthusiastic members in service. I have not given up hope that the open positions will be filled before long.

In the absence of a DSL we have been continuing as if we did. The chairpersons hold a monthly meeting the week before our District meeting. This is a gathering, via zoom, to give a status report and reason any issues or concerns out with each other. I have been chairing this meeting and have found it helpful to maintain support for these members in service.

We are in the midst of planning our annual Day of Workshops scheduled for June 1st. Please come and join us, sure to be a good time. Al-Anon's Butterfly Garden of Transformation is the theme!

Our Literature Distribution Center is up and running. We are receiving our discount and literature is flying off the shelves! Our LDC has been a great help in reestablishing our status. Speaking of Kimberly, she is also busy planning the Area Service Workshop. We hope to see many of you at this event too, hopefully scheduled for August.

Lots of growth and service going on over here in Pinellas!

Respectfully Submitted,
Heather DePass
