The day was was spent in fellowship. The plan had been to have 3 Open Topic Alateen and AIAnon Meetings, 1 newcomer as needed; AMIAS training as needed. So I planned and GOD and the Teens laughed. We did manage to have 1 Alateen meeting w the Topic of Happy and Crappy - a new one for me - this was the first Alateen meeting I chaired. There were 2 group of teens 5 that knew each other and 2 brothers from a different area. The teens were really awesome. The 2 new members were welcomed into the group. The teens played kickball in the ran using palm fronds for bases, they fished, tossed around a football, (raised my blood pressure). The AIAnon members colored and shared through-out the morning - after lunch we held a meeting. Everyone helped with set up and clean up. Overall I though it was a very good a day. I have heard from others that attended how much they enjoyed the day and what a great opportunity for the Teens to meet and realize they aren't alone. I would recommend hosting the roundup prior to considering the convention.

Donation to Area 9 160.00. I am planning on speaking w D 6 about returning some of their donation as we did not spend all of the money we received, if they decline this it will be presented to Area 9

Yours in service
