

Task Force Recommendations: Storage Unit in Orlando

It is recommended the Area and District 10 make a one year trial period agreement, on storing equipment from Area in the District 10 storage unit, ending at AWSC in August 2016. At that time we can get feedback on how it is going and a decision may be made for a permanent solution.

The cost to the Area needs to be discussed. It is recommended by District 10, no more than \$10.00 or no less than \$5.00 a month.

It is also recommended, only the equipment, coffee pots, microwave, and Spanish translation equipment, be stored. No stockpiling.
