

**Task Force Topic: Storage Facility In Orlando  
Findings and Recommendations**

**Members: Nancy C. (Chair), Lou D, Eva N.**

**Task Force Summary / Findings:**

In going over the KBDM questions filled out by the Thought Force, it became clear what is needed by Area 9, to keep our few items safe and readily available for Area 9 functions.

**Items to be stored:**

- Spanish Intergroup Translation Equipment
- Two coffee pots
- Microwave

**Location of items and expense:**

- The location of the storage unit in D10 is centrally located between our current Assembly location and our new location for 2016.
- District 10 is very willing to work with the Area members in getting the equipment where it needs to be and back to the storage unit. We are willing to do our part.
- The space needed for this amount of equipment is minimal. I would think no less than \$5.00 a month or no more than \$10.00 a month would be appropriate rent from Area. This may be discussed and agreed upon by members of Area 9 and District 10.
