

Convention Report

AWSC February 6, 2016

I'm Charlene, your NFA 2016 Convention Chair. The theme of the convention is Seeing Clearly Now. We meet the 3rd Sunday of each month at the OP AA House at 2:00 until 4:00. Everyone is welcome. So far we have about 25-30 regulars at the meetings. All chair positions are filled except for Information/first aid. If you are a nurse, para-medic, doctor, or a worker bee, we can use your help in this position. The worker bee can coordinate time spots for the position and not be involved with the medic part of it.

We have a great website where you can register, purchase convention gifts, and book your hotel reservation. Right now we are at or near half our contract for rooms. Our goal is to book out the whole hotel. They have said we have free rein if we fill the hotel; we can do whatever we wish, however we wish.

Also, we have another clock to raffle. You will find the instructions in your box.

What can I say. Everything is falling into place. The committees report their work at the general meeting. We ask questions, hash out answers, etc. etc. Being the chairman is the hardest work I have ever done in Al-Anon because I have to keep my nose out of the committees and my mouth shut. I watch all the work take place and marvel at how it works without my meddling.

OK here is an example: This if from the program committee. I'm going to read to you so I don't leave something out. I didn't write it or plan it; I just know about it. Hopefully I can explain it afterward. You see there is a lovely bouquet at each DR's place and I'm sure you are wondering what it is and why you have it. There is a sheet in your box that says Seeing Clearly Now.
