

2020 Virtual World Service Conference
April 20-24, 2020
Post 1

Hello Area 9!

We are launched on our first ever Virtual World Service Conference and it has started with so much love, support, recovery and information!! Even though most of the sharing and conversation was through AFG Connects it was a very busy day as we explored the world of Electronic Meetings and also looking at the overall Service Structure. I can't wait to share both of these presentations with you!

I appreciate the warm thoughts, the kind words and the love you are all sending as I continue with the week ahead. It's exciting, exhausting, amazing and deeply meaningful. I'm learning so much!

Today we will have our first live session - it lasts for four hours this afternoon! There have been lots of practices, and a steep learning curve for many participants. I've once again been so grateful for the forward-thinking of our Area and our willingness to experiment with technology. I feel prepared and ready.

I hope all of you have a wonderful week - doing the things you do best. Thank you for your dedication and service to Al-Anon. And for your faith in me.

Love in service,

Cindy J
Panel 58 Delegate
