

Our Place in the Tribe.

We in district 11 are in the process of building our space in the global, recovering tribe of Al-Anon.

Our home is, by design, is a safe, nurturing space where family members are all equals. Each is given the space to grow, both personally and as leaders, in and out of our fellowship.

Through service by all members, our home is being built using basic, time honored materials and tools such as the principles embodied in the steps, traditions, concepts and warranties. This mortar serves as our guide, not only in the construction of our home but, in all of our affairs.

One day at a time, one meeting at a time, each of us will contribute components of that binding by providing mini workshops based on the principles. In this way, our home is formed on a solid foundation upon which we may all thrive and grow.

By extension, we will be able to offer the loving hand of Al-Anon to you, our neighbors, and, to the wider community.

We are as grateful to have elders with an abundance of tribal knowledge as we are for the opportunity to embrace newer members, with the energy and enthusiasm vital to our success as a group.

Finally, we are looking forward to learning how you build your own homes and sharing ideas through which our higher powers may be heard.

Barbara A. Grateful Member of Al-Alon

“The unity of our group provides us with a core of stability we can depend on.”
