

District 11 Report

September 13, 2022

1. Many members of our district have been busy in service during Area 9 2022 convention. From Treasurer, to Banquet coordinators, to Entertainment chair, to hotel coordinator to AA liaison, to workshop facilitators and volunteers in other areas of need, we all enjoyed the opportunity to grow in service with each other and members of other districts.
2. Many of the same members remain busy in service to the area 2023 convention with more than a few realizing how vital service is to individual recovery as well as for the benefit of the organization as a whole. I am very grateful for the “new to service” members who decided to join us for the 3 Rings of Recovery (legacies) circus.
3. Our district donated our entire inventory of Al-a-teen literature to the most recent Al-a-teen area event. All remaining items not distributed at that event were donated to people involved in Al-a-teen service throughout the area. It is our great hope that we may need to place an order for more literature in the not too distant future in event that face to face Al-a-teen meetings will once again be held in Brevard County.
4. At the last district meeting, I polled our members for feedback regarding the last assembly. Overall, members commented on the positive experiences they shared with each other and with members from other districts. One of the most common responses included an appreciation of the “organization” of the meeting. Other comments included the observation of how our legacies work in a meeting of this size. Some members shared their appreciation for the lack of “outside issues.” Some remarked on the level of respect demonstrated among members with an attitude of gratitude.

5. Our DISL continues to execute his responsibilities with great enthusiasm, discipline and commitment. He has coordinated with several local organizations to be present to carry the message of hope and help as suggested in Tradition 5.
6. Three of our members are preparing to discuss the red light/green light questions assigned for the upcoming assembly.
7. Please take a look at, and purchase, your very own convention 2023 t-shirts available at assembly. As a member of the publicity committee, I am pleased to report that our kickoff at the end of convention 2022 was a success on many levels. Sales for this beautiful T-shirt were brisk and we hope to place additional orders so everyone who wants one can have one.
8. District 11 offered literature on consignment for sale at convention 2022. We are pleased with the sales and grateful to have reduced our inventory, that these precious publications may be used by those in need, as opposed to gathering moss in storage.
9. One member of our district is a professional translator for the Deaf and HOH. She has volunteered to offer her skill set at the upcoming convention, at no charge. I am looking forward to see how service to this particular community unfolds according to the will of HP.
10. Finally, Llew E will be acting DR during this assembly. I greatly value her friendship and experience in all levels of service to our fellowship.

Respectfully ,

Barbara A. DR-11
