Date for Tri-Lingual Release of Updated Service Manual

Conference Members,

After a thorough review of the remaining effort required to complete major revisions to the "Handbook" section of the Service Manual, starting with the 2017 WSC approved "Handbook" changes, and to incorporate the changes approved by the 2019 World Service Conference within the "Concepts," "Handbook," and "Policy Digest" sections, we will deliver the trilingual Version Two (2) Service Manual **online on November 25th**. The timeline reflects the efforts of Staff to evolve our processes to support delivery of all three languages simultaneously in the future. We will follow-up with you regarding the date of the trilingual printed versions in the summer.

Vali F.
Executive Director
